National Building Codes Workshop Changes for NBC 2015

The Building Standards and Licensing Branch will provide a Code Adoption Workshops to highlight significant changes in the National Building Code (NBC) 2015 and the National Fire Code (NFC) 2015. The emphasis will be on changes made in Part 9 of the NBC. The workshop will include highlights of the changes to Part 3 of the NBC and throughout the NFC. An update will be provided on the implementation of the National Energy Code for Buildings (NECB). The workshops will be of interest to industry, municipal officials, building officials, fire inspectors, designers, building owners, and other interested code users.
