

## Construction Drawings 101

Are you new to using construction drawings? This workshop will introduce you to the fundamentals! Join us for this four-hour session and learn the basics of how to interpret information from plans, elevations, sections, details and notes contained in typical construction drawings.

By the end of this workshop you will be able to:

- List the components of a typical construction drawing set
- Identify typical drawing types, symbols, notes and scales
- Recognize the common types of drawing sets and explain their differences
- Extrapolate specific information from a drawing set and cross-reference it to the construction specification
