

## Getting Paid & Managing Cash Flow in Construction

This is an interactive half-day seminar that will cover the fundamentals of interpreting construction specifications. The seminar will deal with the basics of reading and interpreting both the general and technical specifications.

**Course Objectives:** Payment in the Construction Industry is a problem. This create problems for both the Owner and the Contractor as well as the other participants involved with the project (Consultant, Subcontractors, Sub-Subcontractors and Suppliers).

The Canadian Construction Documents Committee (CCDC) and the Canadian Construction Association (CCA) publish standard contracts and guides for the Construction Industry.

In this half-day workshop the Payment Process in Standard Contracts (CCDC-2 Stipulated Price Contract, CCA-1 Stipulated Price Subcontract, CCA-19 Stipulated Price Sub-Subcontract) will be reviewed along with contract language from non-standard contracts which can delay payment.

It is important to recognize when your client is trying to work language into the contract which delays payment (Pay-if-Paid, Pay-when-Paid, "Notwithstanding" clauses).

**Guides covered by the course:**

- CCA 28 – A Guide to Improving Cash Flow in the Construction Industry
- CCA 50 – A Prime Contractors Guide to Project Financing and Payment Security
- CCA 53 – Trade Contractors Guide and Checklist to Construction Contracts
- CCA Banking Guide for the Canadian Construction Association
- CCDC 12 – Project Financial Information Disclosure Form

**Your Presenter:** Phil Perry has 30 plus years in the Construction Industry, most of which was Project Managing Industrial Projects for General Contractors. He has been teaching Post-Secondary Construction Management Courses for the last eight years.

**Who Should Attend:** Anyone who is involved with billings and payment: Managers, Project Managers, Project Coordinators, Project Accountants of all levels will benefit from the workshop.
